FEATURED PARTNER

Vision 33 Canada

Fit Foods Ltd. is one of the fastest growing manufacturer-distributors of sport nutrition and healthy lifestyle products in western Canada and the world. Since 1996, the company has formed a built-to-last business model centered on core, dependable products that start with top-notch ingredients and first-class quality control, regulated by a team of in-house food technicians.

Customer Challenges

- Processes were performed manually resulting in inaccurate inventory and a lot of paper work due to no system integration.
- Overstocked to prevent out of stocks, raw materials turn absolute and was written off.
- Meeting the production demand was becoming more challenging.
- Batch tracking and traceability was difficult and very labour and paper intensive.

Solution

- Boyum products provided the most complete and in depth solution to meet the needs of MRP, production scheduling, stable scanning, and batch management control and tracking.
- Boyum and SAP Business One solution provided the best overall integrated solution for all departments in the organization.

Results

- Better control of manufacturing processes and tracking raw and finished goods through the plant and out the door.
- Accurate inventories helped in efficient scheduling and reducing out of stocks.
- Time saved on day to day functions thanks to complete integration for the whole organization.

"THE BOYUM AND SAP BUSINESS ONE PRODUCTS HAVE BROUGHT EFFICIENCIES TO EVERY SINGLE DEPARTMENT. ALSO, THE AMOUNT OF INFORMATION THAT IS AVAILABLE TO ANALYZE IS INCREDIBLE"

Marcus Noronha, Director of systems and digital strategies
