Beas Manufacturing & B1UP

PARTNER

SPS Gestão Empresarial Ltda

Grupo ABR **gained operational excellence** by using Beas and B1UP, seamlessly integrated with SAP Business One

Grupo ABR is a steel manufacturer focused on offering quality products, commercial excellence, specialized customer service, and delivery agility. With Beas Manufacturing and B1 Usability Package on top of SAP Business One, this company was able to automate processes that were manual before, extending SAP's functionality and improving operations across different departments.

Challenges

- Rapid but unorganized growth
- The company needed process agility and data uniformization
- Sales and invoicing processes were manual, highly impacting the Sales and Finance departments

Solution

- Automating processes bringing operational excellence

Results

- Purchasing, financial and commercial operations are automated and linked, directly or indirectly, to B1UP and Beas Manufacturing
- The integration with the system and the automation is so seamless that the staff does not even know they are using these tools in the backend
- Easy customization for extended functionalities

"WE HAD THE IDEA OF FINDING A SOLUTION AND THIS ONE MET OUR NEEDS PERFECTLY."

Helton Martins – IT-Supervisor
