FEATURED PARTNER

Brain System Srl

Jodovit Srl is an Italian company that produces chemical auxiliaries for smelting ferrous and non-ferrous metals. It also manufactures forming sleeves, monolith mortars or sectors for steelworks, refractory plasters, exothermic powders, die-casting separators, aluminum powder streams, granules and pellets, and ecological fiber products. Close collaboration with customers and valid technical assistance on the main markets of international markets characterize Jodovit.

Customer Challenges

- The whole production cycle was manual with paper production orders and not registered in the ERP making the traceability process more complex and challenging.
- Absolute lack of product traceability and no statistical data available before making critical decisions.
- Production line employees were affected.

Solution

- Availability and reliability of the data.
- Production progress on the machine for timely management of materials and registration of transactions.
- Production order with barcode management and batch number traceability.

Results

- Fully computerized production orders.
- Punctual production process.
- Drastic reduction of human error and traceability of the batch.

"BEAS MANUFACTURING ENABLED US TO GET A REAL-TIME 360-DEGREE VISIBILITY INTO EVERY STEP OF THE PRODUCTION PROCESS WHILE KEEPING A FULLY EMBEDDED SOLUTION WITH SAP BUSINESS ONE, WHICH IS HELPING US TACKLE EACH CHALLENGE MORE EFFECTIVELY."

Gian Luca Calloni /IT Manager
