FEATURED PARTNER

GESODATA MBH

With SAP Business One and Beas Manufacturing, we benefit from a **more fluid way of working** without disruptions

eskon GmbH is specialized in cable assembly, device and plant construction as well as a supplier of components for industrial electrical engineering. Its customers include companies from all areas of industry, such as forklift trucks, medical technology, e-mobility and spare parts. With its advanced machinery, the company can supply all types of cable harnesses and assemblies in the highest quality.

Customer Challenges

- Need a reliable ERP system that can grow with us, as well as production control and a professional partner.
- The previous system has reached its limits
- The manual workload is very large and takes up a lot of time

Solution

- SAP Business One and Beas Manufacturing can cover the requirements of our company and support our future path.
- GESODATA as a partner, offers us expertise in all project phases and supports us in successfully implementing new requirements.

Results

- The performance of Beas Manufacturing is very good, colleagues were able to adapt quickly and benefit from a much more fluent way of working. Overall, the workflows are better and more trouble-free. Our production orders are handled well by the system. Through the implementation of QC, we experienced another huge time saving.

"THE PERFORMANCE OF BEAS IS VERY GOOD. AFTER ONE WEEK THE COLLEAGUES WERE ABLE TO ADAPT QUICKLY, AND AFTER 4 WEEKS THE TEAM WAS PERFECTLY TRAINED."

Oliver Soltow, QS Leitung, eskon GmbH
