PARTNER

Vision33

Teadit NA Inc is recognized worldwide as a leader in the development and manufacturing of innovative products for critical fluid sealing processes. The wide variety of sealing solutions developed by them have been important tools for many industries including the Refining, Chemical Process, and Power Generation industries. Teadit has helped several industries achieve the goal of an emission-free environment within their facilities. In North America, they are located in Houston. Worldwide, they have locations in South America, Europe, and Asia.

Challenges

- Need for a user-friendly system.
- They could not open aging from the business partner master data which added steps to their processes, increasing the data entry time.

Solution

- Ability to create buttons that allow them to run procedures.
- Ability to create tabs on the screens running a SQL query.
- Possibility to automatically send sales order confirmations and auto e-mail certificates of compliance to customers.

Results

- Time-saving for inside sales.
- Ability to easily track customer payment history.
- User-friendly system.
- Easy to program without having a background in coding (by making an SQL query).

"BOYUM HAS BEEN A GREAT TOOL FOR OUR COMPANY. WHENEVER SOMEONE ASKS IF SOMETHING CAN BE DONE, I HAVE GREAT CONFIDENCE IT CAN BE DONE THROUGH BOYUM"

Daniel Sellen / Controller
